

SECAN LOOKBOOK

FAST BYWAY ADVENTURES

INTRO

Thanks for your patience. We've been out of stock of the original Strael for some time and we really appreciate those of you that have been waiting for the release of the Strael 2.0. I've obsessed over the design and tried to evolve the product so that it's more elegant and refined but without losing any of the utility and functionality of the original.

The product will go live on the site in a few weeks. As with the original, we'll include detailed design notes and be making the process of purchasing upgrades more straightforward. For 2018 we have five Shimano build options from 105 to Dura Ace Di2, as well as Sram 1X build options in Rival and Force. The prices have increased a little, mainly because of exchange rates, but if you order with the early bird you can make a good saving.

I do believe this is the best steel 'All Season' road bike on the market and given the tube specs, build quality, design details and range of sizes (10 sizes) I think it represents amazing value.

Dominic Thomas - Fairlight Bike Designer

GEOMETRY

A - FIT GUIDE

This is not an online bikefit, it is a guide to help find the best bike geometry for your proportions.

The way it works:

- Select your frame and input your height and inside leg measurements
- Overall Frame size is driven by your height (e.g. 5ft8" = 54cm)
- Frame Geometry is driven by your proportions (e.g. 54Regular or 54Tall)

Frame	Choose Frame...	1
Units	Choose units...	2
Height	Choose...	3
Inside leg	Choose...	4

B - SEND BIKE FIT DATA

C - MEASURE BIKE

	1st Choice	2nd Choice
Too Low		
Low / Race		
Mid-Low / Sport		
Mid - Recreation		
Mid-Upright / Touring		
Upright / Comfort		

1st Choice - What we feel will be the most compatible frame with your body.
 2nd Choice - Covers riding styles not obtainable using the first recommendation.
 Note: Even with our 'Proportional Geometry' bikes, riders with extreme body types (e.g. very long legs vs body) may be restricted in riding styles available.
 If you're unsure about using this guide just email us on mail@fairlightcycles.com

The **Fit Guide Tool** can be found on all existing product pages on the website

PROPORTIONAL GEOMETRY

All Fairlight bikes have been thoughtfully conceived with the rider in mind. Everybody is different; our bikes are designed to account for differences in body proportions not just overall height. We call this 'proportional geometry'. We offer all of our frame sizes in (R)egular and (T)all versions so that you can find your perfect fit.

(R) REGULAR

Designed to be lower at the front and longer.
 For people with shorter legs and a longer back.
 Or, for those just wanting a lower, racier, riding position.

(T) TALL

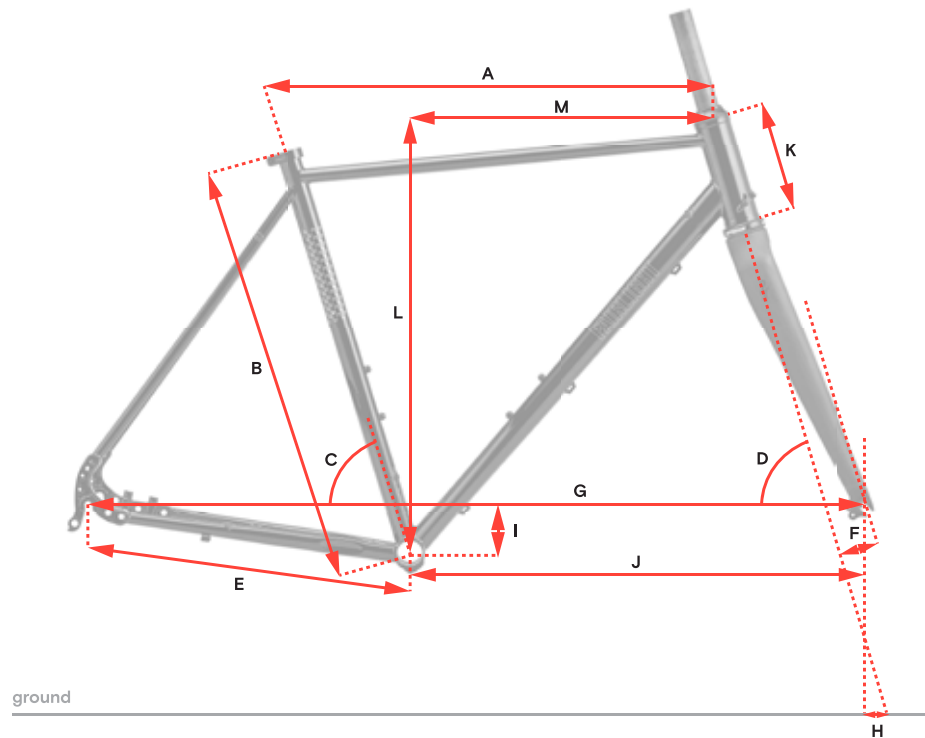

Designed to be higher at the front and shorter.
 For people with longer legs and a shorter back
 Or, for those wanting a more upright position.

FINDING THE RIGHT SIZE AND GEOMETRY

We always recommend having a bike fit; the benefits to your comfort and efficiency can be massive. This can only be done in person with a skilled bike-fit practitioner. If you've had a bike fit then you can send us your details and we'll provide you with a 'Fairlight Fit Report'. This recommends a frame geometry and the exact bike setup required to achieve your fit. If you go ahead with the purchase we'll set up the bike per your report.

If you haven't had a fitting you can use our online **Fit Guide Tool** to help find the right frame for you.

SHIPPING

UK Shipping

- All bikes and framesets are sent out via TNT. Shipping is priced at £15.

Other Shipping Zones

- We ship internationally with DHL. Estimated costs are dependent on shipping zone. All of the costs are inclusive of UK VAT for EU customers, exclusive for non EU.
- Western Europe: Bike £80, Frame £40
- Central / Eastern / Southern Europe: Bike £90 – £100, Frame £40
- USA: Bike £180, Frame £70 (ex VAT)
- Canada: Bike £220, Frame £90 (ex VAT)
- Australia / New Zealand / South East Asia: Bike £340, Frame £100 (ex VAT)

Shipping Payment

- Shipping cost is added to your order after you have placed your deposit.

HOW TO ORDER

THE ORDER PROCESS:

1. Go **HERE** to place your order.
2. Current availability dates are shown in the linked page. Allocate your frameset by selecting your size, colour and build options. Pay your £500 deposit.
3. We will send you an email confirming your order.
4. You will be emailed an invoice link approx 2-3 weeks before your build is due. The balance must be paid in full no later than one week (7 days) prior to your allocated build slot.
5. Your Secan will be delivered to you.
